"I have overcome the world." Jesus (John 16:33)

February 2020

Mission to Konkabay, Guinea - Please pray for God's favor on this project!.....Jasper Williams, Liberia

To my Heritage family, I am privileged to share a report with you from one of our church planters, **Wil-mot Walker**. In sharing this you will more fully understand what it takes to plant a church in areas that have been closed to the Gospel for years. Upon reading through this it is our desire that the Lord will stir your hearts to **pray** with more fervency and urgency. Thank you for collaborating with us. Thank you for encouraging us. Thank you for supporting us. Thank you for following Jesus. Thank you for **praying**. **Jasper Williams**

Who are the Kakabes? Historical Background:

The Kakabes are aborigines of Kankalabe in Guinea who were originally Malinken, Bioma. Their ancestors fought a tribal war with the Fulani. The Fulani defeated them in the battle and became their slave masters. Due to the harshness of the Fulani the Kakabes decided to create a language that their slave drivers would not understand. The language they developed is Kakabe. Other tribes were brought from the Forest region and sold to the Fulani King as well. They quickly learned the "slave" language as well. Not only were the Kakabes forced into hard labor, but they were also forced into Islam. Although this happened long ago it is astonishing that these people are still under suppression today.

Why are we reaching out to them?

1. We want to study their culture and way of life so we gain greater knowledge as to how we can effectively take the Gospel to them.
2. Jesus died for their sins. They need to know Him as their Lord and Savior. (John 3:16) What if someone had not shared the Gospel with us?
3. Our Lord Jesus has mandated in the Great Commission that we are to go and make disciples of every nation. (Matthew 28:19-20)

How did we make contact with them?

We are always praying for the Holy Spirit's leading especially as it relates to planting a church where no other church exists. We heard their story. We were filled with great compassion for these people. We quickly came to agreement that we needed to respond to the Lord's stirring in our hearts. We knew it would be a long journey by car and motorbike. After several hours we arrived.

Our observations:

The condition of the roads were extremely poor. Two motorbikes broke down. We had to wait for a third one to reach us. It took us half a day to reach our target. Once in the area we were able to quickly ascertain that there was no church in the entire region of Fouta Jallo which includes Dalaba to Kankalabe, including several towns and villages of the Kakabes.

We did discover one Christian, however he refused to identify with us for fear his neighbors would discover he is a believer and banish him from work and village society. We devised a way to talk with him without compromising him. (Yet after four days he felt it best we leave since he was sensing some were suspicious.) He confirmed that Christians are not allowed to gather for worship. As is the case in so many areas when Muslims convert to Christianity they are treated poorly and many times persecuted. We did find out that the government is open to organizations who provide education, medicine and fresh water for the people. (This could be the opening we need.) We also observed that even today the Fulani's consider the Kakabes to be subservient to them.

What God did while we were there:

The four days we spent in Kankalabe were marked by success. The Christian brother who met with us directed us to the village of Thiro where we met with Alphonse. He was sympatric towards Christians but he himself was not born again. Alphonse's wife was a Christian who had been baptized while she was still in N'zerekore. As I was talking with them the Holy Spirit ignited my heart to share the Gospel with him and give him the opportunity to accept the Lord. He did! He repented of his sins and he accepted Christ. Alleluia! We read from the book of Acts chapter 8:26-32. After he read the passage, I asked him, "what is stopping you from being baptized". Immediately we made arrangement to baptize him the next day which was the 25th of January. An added bonus was having his sister, Angel, accept Christ as well. Both were baptized at the same time. Alphonse did not want us to leave his home.

After the baptism we met Sala Musa, a Kakabe who leads over 30 persons in an association that has an agriculture project in Masaya. They shared their need to fence in land to prevent the cattle from eating the crops. They also told us about three major needs they have as a community: a medical clinic; a school; and a new agriculture project. We received official permission from the Sous Prefer (like a Chief) of Kankalabe to share our vision with the KAKABE. Ditanyan was called by the Sous Prefer (Mr. Sanor) to take us to all of the KAKABE villages in order to share our vision with them. I was very bold in telling Mr. Sanor that we are in his region to share the Gospel with

the Kakabes through loving them and **praying** for them. We shared our desire to work with them to see their children go to school, to have safe drinking water and to have good medical center. The Prefer was happy and approved. He said that we can only share the Gospel in the region if we assist them with these needs. If we can't help them with these tangible things we will meet up with strong resistance from the Fulani. Ditanyan (Kakabe spokesman) came to wish us well as we departed the region. Here are the names of KAKABE towns and villages around Kankalabe: Masaya, Sajoya, Sedebaya, Minguia, Moudia, Borrya, Wansant, Fitadala, Madina, Nassauraulaya, Kouffa, Bouteya, and Kalya. **Please pray for them.**

**What is the Lord saying to us now?**

God has laid a burden on my heart to love the KAKABES and to do mission work among them. We believe the Lord is leading us to have a training center here in Conakry where we can bring key persons to disciple and train them for the work ahead. This will be intense training to prepare them for anti-Christian attitudes and opposition. As I have already stated in this report there are many challenges, including: The sharing of the Gospel is slow since 90 percent of the population are Muslims; The Fulani consider the KAKABES their slaves and would not want anyone dealing with them without their permission; and It is prohibited for a Christian to speak with a Muslim in private, all meetings are done in the open. Yet we know "all things are possible for those who believe." Therefore we also believe the Lord is encouraging us to apply for a document from the Ministry of Internal Affairs and Religious Affairs to authenticate our mission.

Please pray for us!

Pray for an elementary School to be built for the KAKABES as soon as possible.

Pray that water wells be drilled in both the Fulani and Kakabe communities. (The Fulani are in authority and would not allow us have access to the KAKABES unless we help them with this kind of project.)

Pray for laborers to begin working with the KAKABES on the fencing agriculture project.

Pray that we obtain a vehicle for the travel this mission will require.

Pray that Bible and Gospel literature becomes available in the KAKABE dialect.

From Lori Miller, Dalat International School, Malaysia.....Thank you for your continued **prayers** and support. Both are much appreciated. Let me start off *by thanking you for praying for my friend* Christine. In the busyness of the holidays and being on vacation...I forgot to share the good news. Christine, who is now back in Canada, went home to the doctor for the results of her medical tests. As you know she was diagnosed with cancer and undergoing treatment. She has since been told that they did not find any cancer in any other parts of her body as is normally the case with the form of cancer she has. Miraculous! She will need to be scanned over the upcoming years, but God did a mighty work in her life. Thanks for your **prayers**.

This 2019-2020 school year is going well. One area of focus has been to create an environment in my new office so that I can host parents. (*Communicating with parents is extremely important.*) Your financial support has enabled me to fix up my office – buy a working table, paint an accent wall, buy some plants – my office is so much more inviting! I will soon be offering training and resources for parents on such topics as: technology & teens; understanding your teen; combating porn; identity issues; YouTube & other social media; gender issues; and many other relevant topics. I hope to kick this off soon. Please **pray** that the biblical worldview will impact entire families. God bless you! I hope to see you this summer.

I enjoy working with high school students. Here at the Dalat International School there is such a passion to impact students academically and spiritually. As you know I love technology. These pictures show students learning how to produce their own videos. As you look at these kids please **pray** for them, their parents and for all of us teaching them. They have great potential!

Please continue to pray for Lori as she serves in Malaysia. Besides her ministry with students she is also interacting with many of her colleagues and neighbors. Please remember to **pray** for **Sylvia Fruit** serving at the **Jersusalem School in Bethlehem**. Sylvia has a great desire to make a lasting, eternal impact on her students. Finally **pray** for **Alayna Rockefeller** as she serves in Costa Rica. Alayna is part of **SCORE's** leadership team.

Saturday, March 7th, 9-11 am

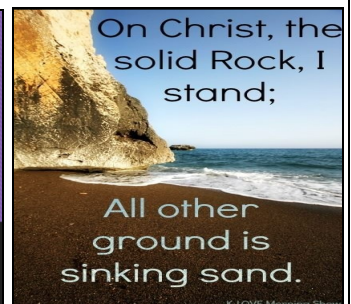

Clothing donations and Volunteers to help are greatly appreciated!

Pastor Dave will be traveling to Myanmar.

February 19-25th

Ministering with Dr. Sam George.

Church Conference and Emmanuel Bible Institute graduation

From Tantor Joseph, Cameroon.... Dear brothers and sisters in America. More grace to you as you labor in God's vineyard. Accept our heartfelt gratitude for considering us in Cameroon fit to be benefiting from your constant ministry supports. To be frank, if God had never raised steady supporters like you for us, we would not have moved an inch in ministry. I first came in contact with you many years ago and all I could do was plead for Bibles and tracts so that I could go out into the street markets and distribute your gifts and preach the Gospel. We saw the Lord bring many to salvation. But now in these days your faithful **prayer** and financial support is being felt in churches and on the mission field. In the past few years alone, even in all the violence and turmoil here in Cameroon, our ministry footprint has grown drastically. We have organized Gospel rallies, conferences and crusades that have reached thousands. We have been able to support many struggling pastors. We have seen new churches form. God has given our ministry many fresh seminary students to send forth into the vineyard of our God. Thank you so much for having compassion.

January 2020 will be ending tomorrow and God has really worked through us. With the recent funds sent we were able to sponsor evangelism and mission works, empower young energetic ministers in the Field and hold seminars in 3 centers to empower all ministry community leaders to have a right perspective of suffering in ministry. During this time in Cameroon we have come to know that challenges are a necessary ingredient in ministry to make us more like Jesus. We were also able to support Pastor Ngeh Hilary who is critically sick.

I praise God for the ordination of Pastor Ngeh Promise (the father to triplets) in Asha a village near Lassin where Rev. David preached while here. Pastor Promise has really proven to be faithful in ministry during turmoil and crisis. After ordination, while at Lassin, many disciples requested a Bible. I was wondering if you would be able to send more for us to distribute.

I will also share the lessons of the T.F.R (Training For Results) seminar. God willing, we shall be retiring a father who joined ministry with us at the age of 66 and has succeeded to groom a church which now has a fulltime minister. Please **pray** for him. He has worked so hard to make sure the church would endure.

CHALLENGES AND PRAYER REQUESTS

1. There is high need for tracts but access to Ndu Post office is impossible because of kidnappings and extreme violence. I am sending you another address. We trust God for the safe delivery to us.
2. The illness of Pastor Hilary that I mentioned earlier seems to be a terminal disease and we really pity the young wife who is now pregnant and has two children. We are crying out to God for His intervention.
3. The T.F.R seminars will continue. Many laborers will be sent out this coming year.
4. Our leaders need to humble themselves before God. Cameroon is in much turmoil.
5. We are wanting to see more souls won for Christ.

May God bless and keep you as you labor for him.....TANTOR JOSEPH, CAMEROON

Please **pray** for David and Jackie Lugo, along with their six children. By God's grace the Lugo's will start extended ministry in Israel later this year (July 13 - October 7). They will be working with an indigenous group of believers that have a strong evangelical presence in Tel Aviv. Specifically they will be reaching out to poor and struggling individuals and families. They will have many opportunities to creatively present the Gospel through worship and teaching. **Pray** as the Lugo's keep serving the Lord the next several months here in the United States and beyond.

From Ron Uhlman, Odosagih Bible Conference....

Thank you so much for your **prayers** and financial support this past year. Several retreats were held and our summer conferences were well attended. The preaching, teaching and singing of the Word was well received. Many decisions for Christ were made. The Whitney Center project is moving at a good pace. Please continue to **pray** for us here as we look forward to 2020. Blessed be the Lord!

Dear beloved friends and believers in Christ Jesus, on behalf of my wife and family we give you our deep appreciation for your faithful consideration of the Lord’s work here in Andhra Pradesh. By God’s grace we are conducting many Gospel outreach programs. There is opposition but the Lord gave many people new hearts. we were able to baptize 100s of people last year and we are **praying** and working for the same in 2020. We hope this is a source of blessing for all of you investing time in **prayer** for my family and Shi-Loh Ministries. We never forget to **pray** for all of you. We are thankful for the work each of you are doing.

Paul Kumar, Andhra Pradesh, India

From Uganda, The Ugandan Water Project.... Thank you for bringing safe water to Kavule. You helped us rehabilitate a borehole that is 380 feet deep. Over 500 people have a stable supply of clean water once again.

We are so happy that you are a part of bringing life to this village. Please **pray** for these beautiful people. **Ask God** to fill them with His living Word. **God bless you all!**
